

Find out about a planet of your choice.

- What is the planet's name?
- What is the planet made up of?
- What colour is it?
- What is the atmosphere like? (Atmosphere – that would make a great word for your glossary!)
- Does it have any moons? If so, how many?
- Has spacecraft from earth ever visited the planet?
- When was the planet first discovered?
- Where does the planet's name originate? (Use a dictionary to find out the meaning of originate).
- How long does a day last on the planet?
- How far away from Earth is the planet?
- What are the temperatures on the planet?
- How long does the planet take to orbit the sun? (Orbit – another great word)
- Can you place where the planet is in order from the sun? (See image below).
- Can you see the planet from Earth?
- What is the size of the planet? (Diameter – look this word up)
- Anything else that you find interesting...
