

Thursday- inference questions

Your answers don't have to be exactly the same words as the answers below, just the same meaning. Check your answers with a grown up at home.

Question	Evidence
1. Do all the baby opossums survive?	No. we know this because in the text it says fewer than half the babies survive and some of them never even make it as far as the pouch.
2. Why do opossums sometimes appear to be dead?	They appear to be dead to put a predator off its guard and the opossum may have the chance to escape.
3. How are opossums suited for life at night?	They have super senses. They use smell instead of sight to find food and have long whiskers to help them feel in the dark. They have good hearing to protect them from predators.
