

Year 1 Maths Half Term 6 Week 1

Recap Capacity

Children use non standard units to measure capacity

Tuesday 2 nd June 2020.

Green

Find three different, empty containers from round your house. Try the kitchen or the bathroom. Can you put them in order according to how much they hold (their capacity)?

Draw them in your book.

--	--	--

Holds the most

Holds the least.

See if you guessed correctly by seeing how many cups/spoons of water they actually hold.

Yellow

Now do the same but with 5 different containers.

--	--	--	--	--

Holds the most

Holds the least.

Test to see if you were right.

Red

Do the yellow task above and then answer this question.

Does the tallest container always hold the most? Explain your answer.
