

Children use non standard units to measure weight

Wednesday 3rd June 2020.

Green

Find three different objects from around your house --- maybe a book, a toy and a cup.

Now feel each one in your hands and see if you can put them in order from heaviest to lightest. Draw them in your book.

--	--	--

Heaviest

lightest

How could you find out if you were right?

Yellow

Now do the same but with 5 different objects.

--	--	--	--	--

Heaviest

lightest

Red

Do the yellow task above and then answer these questions.

Can you find and draw something that is quite small but heavy?

Can you find and draw something that is quite big but light?
