Making predictions and suggestions

Yesterday you had a go at matching statements with inventions. Today we would like you to try and make suggestions about how different things were invented.

Below is a list of inventions. Choose as many as you want and make realistic suggestions about, they may have been invented.

This is not about using Google to find the right answer we would like to know what you think!

- Chocolate chip cookies
- Crisps
- Tea bags
- Piggy bank
- Glass
- Paper towels
- Velcro
- Trouser cuffs
- Leotards

Try not to over think it - sometimes the right answer is the simplest.
