Place Value

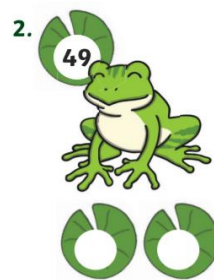

Using the link to practise partitioning numbers.

<https://www.topmarks.co.uk/learning-to-count/place-value-basketball>

How many points can you score?

Green

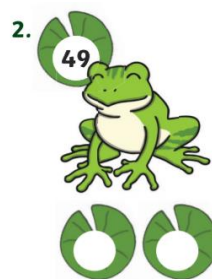

- Can you work out how to partition the numbers below into tens and ones.

- Can you think of any other numbers you would be able to partition into tens and ones?
- Write them down – you could use the template you used yesterday.

Yellow

- Can you work out how to partition the numbers below?
- Using a pack of cards select 2 cards and create a 2-digit number.
- Partition the number you have created into tens and ones.

Red

- Continue with and complete the challenge – The Place Value Mystery in the Palace Kitchen.

Just like yesterday

- The document can be downloaded – you do not need to print it off but you can if you would like to.
- There are 5 clues to solve below working out who the secret nibbler is.
- The answers can be found at the end of the document.
