

# MS4b: Counting On

$$12.4 - 9.8 = 2.6$$

Have a go at the questions below. Remember to do them mentally, practicing the mental maths method.

$$43.4 - 12.8$$

$$16.2 - 11.7$$

# Multiplying Fractions

You are required to do two different types of calculation.

The first one is **multiplying a fraction by a whole number**. Take a look at this video to see how you do this:

[https://www.bbc.co.uk/bitesize/articles/zbh6hb\\_k](https://www.bbc.co.uk/bitesize/articles/zbh6hb_k)

This video is part of the bbc bitesize home learning lessons. You don't have to complete the independent work it sets as well.

# Multiplying Fractions

You are required to do two different types of calculation.

The second one is **multiplying a fraction by a fraction**. Take a look at this video to see how you do this:
