

MS4b: Counting On

$$12.4 - 9.8 = 2.6$$

Today is your mental maths quiz.

Download it off the website and try to do as many as you can in ten minutes.

The answers can also be downloaded off the website so that you can mark your work.

Equivalent Fractions, Decimals and Percentages

Take a look at the bbc website below. It shows you how to find equivalent fractions, decimals and percentages.

The website is a whole lesson. You don't need to do all the independent work. Simply take from the website what you need before completing the independent work.
