## What are the benefits and disadvantages of living upside-down?

---

Watch the video carefully. Think about the following:

- How is living upside-down useful? What is the man able to do which we can't? Can you think of any situations in which living upside-down would be better than living the right way up?
- What are the disadvantages of living upside-down? What every-day tasks are made difficult? What barriers does the man face? Is there anything he's not able to do? What are the worse things about living upside-down?

## Tasks:

- Draw a table and list the benefits and disadvantages of living upside-down
- Write some questions which you would ask the man in the video given the opportunity to interview him.
