Red Answers

7a. Multiples of 5 from 5 to 45.

8a. No. Sufyan is correct that numbers ending in 4 will round down to the nearest 10. However, some numbers ending in 4 could round up if they are rounded to the nearest 100. For example 164 rounds up to 200 because it has 6 tens.

9a. Various answers, for example: If the tens are between 0 and 4, the whole number will be 900. If the tens are between 5 and 9, the whole number will be 1,000.

7b. Multiples of 10 from 30 to 120.

8b. No. Yasmin is correct that 555 rounded to the nearest 100 is 600 as it has 5 tens. However, 555 rounded to the nearest 10 would be 560, not 600.

9b. Various answers, for example: If the tens are between 0 and 4, the whole number will be 300. If the tens are between 5 and 9, the whole number will be 400.
