To multiply numbers mentally

To perform mental calculations, including with mixed operations and large numbers

÷

*What do we know about this symbol?*

23/09/20

To multiply numbers mentally

To perform mental calculations, including with mixed operations and large numbers

$$14 \div 2$$

*What mental methods could we use to solve this problem?*

23/09/20

To multiply numbers mentally

To perform mental calculations, including with mixed operations and large numbers

$$140 \div 2$$

$$140 \div 20$$

*What about these?*

23/09/20

To multiply numbers mentally

To perform mental calculations, including with mixed operations and large numbers

$$72 \div 4$$

*How might you solve this problem mentally?*

23/09/20

To multiply numbers mentally

To perform mental calculations, including with mixed operations and large numbers

$$186 \div 6$$

*How might you solve this problem mentally?*
