

Calculate the missing measurements for these parallelograms.

a)

b)

Use the formula **base \times height** to calculate the area of a parallelogram.

1) Ania has been counting squares to find the area of these shapes.

I think that the parallelogram has a larger area than the rectangle.

Is Ania correct? Explain to Ania how to check if she is correct by using a calculation.

- 2) Hamish has worked out that each parallelogram has an area of 42cm^2 .

Do you agree with Hamish? Explain why.
