### Task 1

Complete a 1 minute wonder.

### Task 2

Read the poem then draw the picture.

The Capable Cat sat down and thought  
That sadly he was probably right:  
Those miserable mice with their inevitable lice  
Could not be reliably caught.

But he set up a trap in a suitable patch  
And hoped that his plan was manageable  
But the adaptable mice worked it out in a trice  
So regrettably, there was not one to catch!
